Interiors	

Design

Prius+ is clearly big on space, yet sports a silhouette that is both eye-catching and streamlined for optimum fuel efficiency.

Modular interior space

Cleverly designed to fit around your lifestyle, Prius+ offers ingenious flexibility including a seven-seat mode, generous luggage space and plenty of smart storage.

Heritage

With Prius selling over 3 million models since 1997, Prius+ comes from a proud heritage you can trust.

Driving dynamics

Prius+ responds to your driving style, with innovative technology that results in a powerful and smooth driving experience.

City friendly

Hybrid Synergy Drive® technology optimises fuel consumption, resulting in exceptionally ultra-low CO₂ – particularly in city driving conditions.

Hybrid technology

Hybrid Synergy Drive® combines petrol and electric power to deliver outstanding levels of performance and efficiency.

A beautiful balance of space, aerodynamics and design.

Prius+ has been purposely engineered to harmonise all aspects of aerodynamics, space and design. While Prius+ inherits and evolves from the styling of Prius, it also boasts a unique rear design to accommodate a large luggage space and a contoured roof with a spoiler. Prius+ is big on space, yet sports a silhouette that is both eye-catching and streamlined for optimum fuel efficiency.

The first full hybrid 7-seater with significant space and versatility.

Prius+ offers exceptional levels of space and comfort, with the ability to accommodate 7 adults and a boot space of 232* litres. Or simply fold the 3rd row seats down for a total of 784* litres. With three independent, split folding 2nd row seats and a 50:50 split folding 3rd tier, you can create almost any combination to suit your needs, whether you simply want more room for passengers to stretch out and relax or need extra space to load longer items such as skis.

Clever storage is everywhere too – from a centre console box to a 345 mm-deep compartment under the floor – big enough to take a week's food shopping.

* Up to roof.

Toyota Touch™

Enjoy unprecedented in-car convenience with Toyota Touch™, available as standard on both grades.

1. Touch screen Multimedia Use the 6.1" colour touch screen with the radio/CD and portable media players connected via USB or aux-in. View instant fuel consumption vehicle data, too.

2. Rear-view camera Reverse more safely using the rear-view camera. The clear colour image displayed on screen helps you spot hidden hazards and park with ease.

3. Hands-free answering Connect a compatible phone using Bluetooth®* to enjoy safe hands-free answering and to stream stored music to your Toyota Touch™.

* Contact your local Toyota Centre to find out if your phone is compatible.

Toyota Touch & Go Plus™

Or upgrade to Toyota Touch & Go Plus™ to be even more connected. Optional on T₄, standard on T Spirit.

4. Full map satellite navigation Plot your route with advanced, easy-to-update satellite navigation. Includes speed limit and safety camera warnings.

5. Text messaging Use advanced Bluetooth®§ to send and receive SMS messages when it's safe to do so, with customisable templates available to minimise distraction.

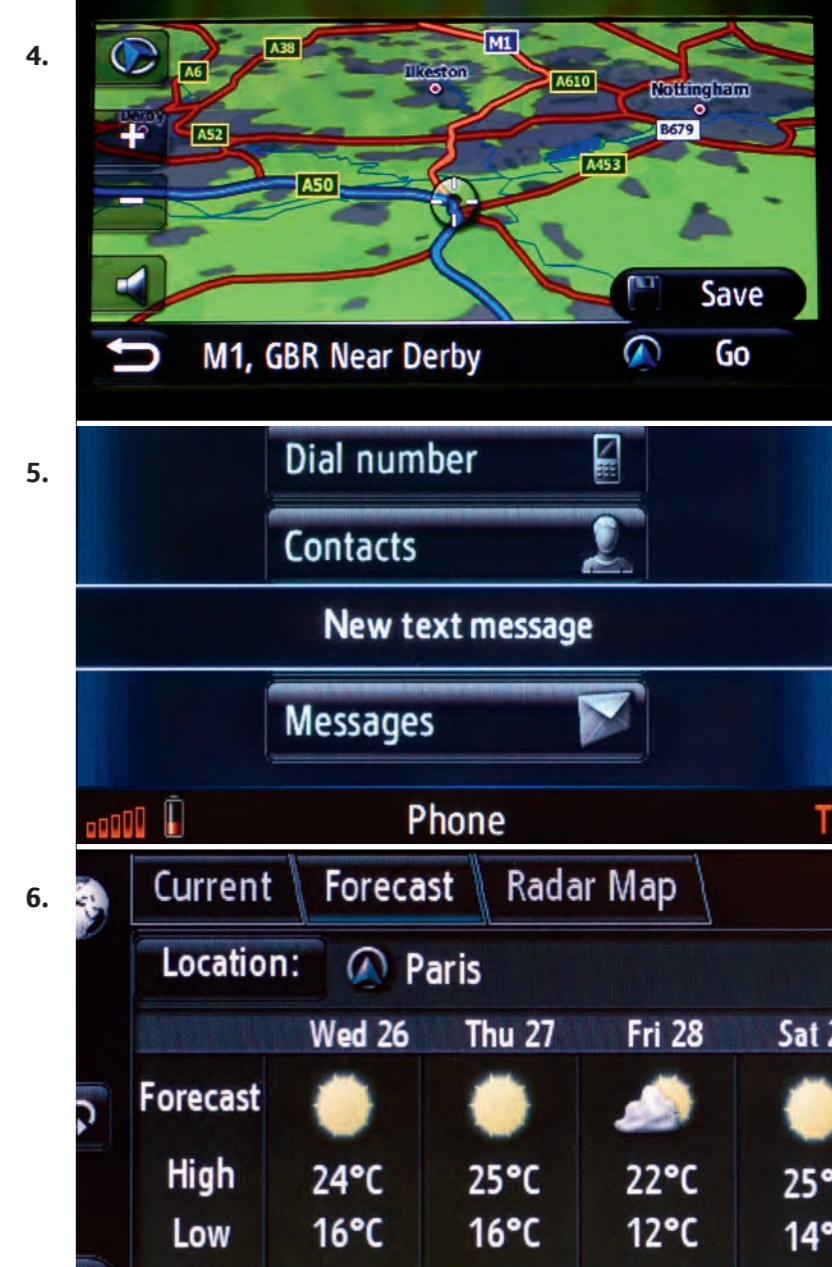

§ Bluetooth® MAP profile required on your mobile phone.

6. Connected services Enhanced connectivity[¶]: online local search, plus applications including Fuel, Parking Information and Weather.

¶ Requires compatible mobile device and tethering.

Point your smartphone or webcam at the graphic for more about Touch & Go™.

Be city friendly, with Hybrid Synergy Drive®.

Hybrid Synergy Drive® technology combines two electric motors and a 1.8 litre petrol engine, making it very city friendly. It automatically switches petrol mode off when you stop and remain stationary, for example at traffic lights.

Prius+ will automatically use its Hybrid Synergy Drive® technology to choose the optimum driving mode by default, but you can also choose one of three modes yourself:

EV mode – perfect for dense city traffic, this mode runs on pure electric power that delivers outstanding efficiency, a quiet driving experience, consuming no fuel and with zero CO₂ emissions.

Power mode – ideal for motorways, giving you quicker, more responsive engine power.

Eco mode – great for most everyday driving; slightly reduces pedal response time, which lowers your fuel consumption.

With Hybrid Synergy Drive® technology, you'll save money with better fuel efficiency and take better care of the environment with lower CO₂ emissions.

Acceleration secs. 0–62 mph (T ₄)	Power DIN hp* (T ₄)	Fuel consumption mpg [‡] (T ₄)	CO ₂ emissions g/km [‡] (T ₄)

11.3	136	64.2	101

* Petrol and electric combined total power.

‡ Combined cycle.

Feel better about tomorrow, feel safer today.

Hill-start Assist Control (HAC)

HAC helps to ensure a smooth start on steep inclines by applying the brakes for up to 2 seconds after the brake pedal is released. This prevents the vehicle from rolling back. It is activated by pushing the brake pedal harder after stopping, as long as the transmission shift lever is in any forward gear position.

Vehicle Stability Control Plus (VSC+)

VSC+ helps to maintain stability and prevent skidding when turning sharply or cornering on slippery surfaces. Whenever the start of a skid is detected, it automatically activates individual brakes and controls engine output. In addition, it applies steering assistance to make it easier to get back on course.

Emergency Brake-light Signal (EBS)

In emergency braking situations, EBS flashes the vehicle's brake lights repeatedly to alert following traffic.

Brake Assist (BA)

If you attempt an emergency stop, BA will detect this and apply additional brake pressure. This enables ABS to work to its maximum potential.

Supplemental Restraint System (SRS) airbags

Prius+ is fitted with seven airbags.

Keep your eyes safely on the road

See everything without taking your eyes off the road. Speed, fuel efficiency, current hybrid mode – they appear sharp and clear in the Head Up Display on the windscreen.

Whiplash Injury Lessening (WIL) seats

During an impact at lower speeds and particularly from the rear, WIL seats and headrests cushion the head and back. This reduces the risk of whiplash injuries.

Pre-tensioners and force limiters

Integral to the front 3-point ELR seat belts, pretensioners and force limiters are designed to help avoid injuries to the chest area.

Traction Control (TRC)

If you accelerate too hard and cause the drive wheels to lose grip and begin spinning, TRC will automatically reduce engine power and control brake force to help restore traction.

Prius+ features

Standard on all grades.

Cruise control system automatically maintains a constant vehicle speed.

Panoramic sunroof
A panoramic sunroof floods the interior with natural light and also comes with automatic shade control.

Touch Tracer Display gives you fingertip selection of driving information, air conditioning and audio.

Smart Entry & Start System
Unlock the car without having to take your key out of your pocket or handbag. To start the car, simply press the button.

Door sunshades
Sunshades reduce glare and give rear passengers more privacy.

Automatic air conditioning
Prius+ is equipped with an automatic air conditioning system to maintain a comfortable temperature for all passengers.

Daytime running lights ensure that Prius+ remains visible to other road users during the daytime.

Front fog lamps increase your visibility and safety in challenging weather.

The Prius+ range – exteriors

T₄

The fuel consumption, CO₂ and noise values are measured in a controlled environment on a basic production vehicle, in accordance with the requirements of European law published by the European Commission. For further information, or if you are interested in buying a basic production vehicle, please contact Toyota Motor Europe NV/SA. The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, installed equipment, load, number of passengers, etc.) play a role in determining a car's fuel consumption and CO₂ emissions.

Mobile network data charges may apply dependent on your contract. These charges may vary, check with your service provider for details. Registration to Toyota Customer Portal is required. In-car applications can be downloaded from the Toyota customer portal and may incur additional charges.

Glossary

Discover more about the Prius+ technology.

Traction Control (TRC)
If you accelerate too hard and cause the drive wheels to lose grip and begin spinning, TRC will automatically reduce engine power and control brake force to help restore traction.

Pre-tensioners and force limiters
Integral to the front 3-point ELR seat belts, pre-tensioners and force limiters are designed to help avoid injuries to the chest area.

e-CVT
The innovative, electronically controlled Continuous Variable Transmission (e-CVT) manages the flow of power from the petrol engine and electric motors for smooth, effortless acceleration. It delivers the optimum blend for every driving condition, ensuring maximum fuel efficiency.

JBL GreenEdge
Keep everyone entertained with the superior sound quality of this 8-speaker audio system. JBL GreenEdge technology gives you twice the performance but only uses half the energy of a conventional car stereo.

Hill-start Assist Control (HAC)
HAC helps to ensure a smooth start on steep inclines by applying the brakes for up to 2 seconds after the brake pedal is released. This prevents the vehicle from rolling back. It is activated by pushing the brake pedal harder after stopping, as long as the transmission shift lever is in any forward gear position.

ISOFIX seat fixing
Seats incorporate special anchor points, including a top tether that helps prevent the seat tipping forward. These provide a safe and convenient way of correctly securing ISOFIX child seats (available from your Toyota dealer).

1.8 l HSD
The 1.8 litre Hybrid Synergy Drive® (HSD) is the world's most advanced full hybrid system. It combines a 1.8 litre VVT-i petrol engine with two electric motors to provide low fuel consumption, low CO₂ emissions and a powerful, peaceful driving experience.

Rain sensor
The automatic rain sensor instantly sets the appropriate wiper speed and intervals.

Supplemental Restraint System (SRS) airbags
This model is fitted with seven airbags. They include driver's knee airbag, SRS airbags for both driver and passenger, side airbags for the front seats, and SRS curtain shield airbags covering both the front and rear seat passengers.

Hybrid System Indicator
The Hybrid System Indicator consists of an energy flow monitor and ECO-drive monitor. This helps you refine your eco-driving skills and optimise fuel consumption.

Toyota takes great pride in constantly improving environmental performance.

- National sales centres
- Logistics centres – vehicles
- Logistics centres – accessories/spares
- Production sites

- Training centres

As a worldwide corporation we aim to be wherever our customers need us, and therefore we have a strong presence in Europe. This shortens delivery distances and results in substantial time savings that are good for you and the environment.

Designing your car

Each design detail on our vehicles is analysed to ensure the lowest possible environmental impact throughout its life cycle. This meticulous approach has led to an array of innovative features on our cars that contribute to environmental efficiency.

50% less CO₂ used to build Prius since 1990

Making your car

At Toyota, every effort is made to ensure environmental efficiency throughout the manufacturing process. Since 1990, we have reduced the CO₂ emissions per unit of production at Toyota Tsutsumi Plant by 50%.

Getting vehicles and parts to you

Toyota is always looking to employ the most efficient and environmentally friendly logistical and delivery methods.

Selling and servicing your car

We have developed a sustainable Toyota Centre programme to reduce energy, water and waste emissions generated across our network. This covers everything from rainwater recycling, introducing additional roof insulation and using renewable energy at new Toyota Centres, as well as carrying out energy audits to identify efficiency improvements at existing Centres.

The end of the road for your vehicle?

Toyota always designs and manufactures its vehicles with an eye on the three Rs: reduce, reuse and recycle. For example, 95% of every Prius+ is reusable and recoverable, 100% of materials are coded and four heavy metals have been eliminated completely in accordance with 2000/53/EC. In addition, our environmental policy means that we offer Toyota drivers new and innovative ways of returning their old car. For more information visit: www.toyota.eu or contact your local Toyota Centre.

Drive thoughtfully

Drive your car in the right way and you could reduce your fuel bill and your CO₂ emissions by around 20–30%.

01. Remove any extra weight and roof load.
02. Plan your route and avoid detours.
03. Avoid using your car for short journeys.
04. Check your tyre pressure regularly.
05. Service your car according to the owner's manual.
06. Shift up gear earlier.
07. Only use air conditioning when necessary.
08. Follow and anticipate traffic flow.
09. Keep your windows closed.

HSD is Toyota's revolutionary full hybrid technology. Switch seamlessly and automatically between petrol and electric engines to suit your driving needs. Or choose to run electric-only

for silent, emission-free driving. Energy is regenerated as you brake: no leads, no manual recharging. Enjoy the full hybrid experience: smooth, responsive, quiet and extraordinarily efficient.

95% of your Prius is recoverable

20-30% less fuel and CO₂

Owning the new Prius+ means you enjoy the peace of mind afforded by Toyota's global reputation for quality and integrity.

On the day you purchase your Prius+, your Toyota Centre will present you with the 'Prius+ Passport'. It's a guide to getting the best out of your Prius+ and its comprehensive range of features. Of course, your Toyota Centre will explain the Prius+ to you in detail – and always be available should you require any assistance.

Toyota Roadside Assistance

When you buy a Toyota you automatically receive 12 months' AA Roadside Assistance in the UK and Europe, free of charge. As an owner you will also benefit from specially negotiated offers and promotions on a whole host of exciting leisure and motoring activities. To find out more visit www.toyota.co.uk/owners

Toyota Motor Insurance

Toyota Motor Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Centre or call 0800 350 500.

Toyota Fleet

Toyota Fleet provides complete business solutions for companies that run a fleet of vehicles. For more information on how Toyota Fleet can deliver your fleet requirements either contact your local Toyota Centre or the Toyota Fleet Business Centre on 0845 271 2712.

5-Year Toyota Warranty

Every new Toyota car comes with a five-year/100,000-mile warranty, whichever comes first, with no mileage limitation for the first year. This covers your car against the unlikely event of a manufacturing defect.

Additionally, the Hybrid battery in the Prius+ is covered, in the event of a manufacturing defect, for 8 years/100,000 miles, whichever comes first. For full details, please ask your Official Toyota Centre or visit www.toyota.co.uk/5yearwarranty

Rust and paint defects The warranty also covers surface rust and paint defects appearing on any of the painted body panels as a result of a fault in materials for a period of 3 years, regardless of mileage.

Corrosion cover The warranty offers 12 years' coverage, regardless of mileage, against perforation of the bodywork (from inside to outside) that develops due to corrosion caused by faults in materials or workmanship.

Extended warranty

After the initial warranty period has ended, you can extend your warranty until the vehicle is seven years old – choosing from a range of packages to suit your vehicle and your needs. Our Extended Warranty covers the main component parts of the vehicle*, meaning that you pay for nothing beyond routine servicing and maintenance, so there are no unexpected bills to pay. For more information please contact your Toyota Centre.

Toyota Approved Used Car Scheme

All Toyota Approved Used vehicles come complete with a pre-delivery inspection, a mileage check, 12 months' warranty, breakdown cover, 12 months' AA Roadside Assistance[§] and a 30-day vehicle exchange plan.

Recycling Toyota End-Of-Life Vehicles

We offer a free vehicle take-back scheme through our appointed service provider, Autogreen. This is a new and innovative way for Toyota drivers to return their vehicle at the end of its life for dismantling and recycling. For more information about End-Of-Life Vehicles please refer to www.toyota.co.uk/environment

Intelligent design

The Prius+ is designed and engineered to minimise the maintenance overhead. There are fewer parts that require servicing and those that do are inherently

durable to extend service intervals. Equally important is that Prius+ technology is made easily accessible so that maintenance labour time can be minimised. These features combine with the highly competitive pricing of Toyota parts to ensure the lowest cost of maintaining your Prius+ in an ideal working condition.

Toyota quality service

Your Toyota Centre will talk you through the Prius+ 'Health and Safety' maintenance programme. The programme is very straightforward and designed for your convenience. In effect, your Prius+ needs a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 20,000 miles (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 10,000 miles (whichever comes sooner).

Toyota genuine parts

The Prius+ is designed to minimise the cost of accident repair. Energy-absorbing elements are built into the bumpers, expensive-to-replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low parts and labour charges.

Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort or practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a 5-year warranty when purchased together with the vehicle.

Added security

The Prius+ has a fully approved Thatcham Category 1 security system. This level of security is recognised by the UK's leading insurance companies.

Flexible Finance from Toyota Financial Services

When choosing your new car you will make sure you choose the right model, the right specification and the right colour to suit you. Choosing how you finance your car is just as important.

Our range of finance plans has been designed with simplicity in mind to make funding your car as easy as driving it. All our plans offer easy budgeting and peace of mind and **AccessToyota** brings these and other benefits together in one flexible package.

AccessToyota is a finance plan that puts you in control. You don't have to worry about finding a large deposit as you agree the amount of deposit that you want to pay and choose your repayment term from 2 to 3 years.

What makes **AccessToyota** different is that Toyota Financial Services (TFS) give your vehicle the security of a guaranteed future value (GFV) which is your optional final payment, deferred to the end of the agreement. Affordable monthly payments are yours to enjoy as your repayments are based on the vehicle selling price less your deposit and the GFV/optional final payment, plus the cost of borrowing.

In addition, you can have reassurance against the risk of a fall in used car prices, knowing the minimum amount your Toyota will be worth at the end of your agreement is guaranteed at TFS.

Then when your agreement comes to an end you have three flexible choices:

- Part exchange your vehicle for a brand new Toyota
- Pay your final payment (the GFV) and take full ownership of the car[°]
- Hand your vehicle back to us subject to fair wear and tear conditions being met, and any applicable fees being paid**

Ask your Toyota Centre to show you how **AccessToyota** could be the best choice for you.

Flexible Finance for all Toyota Customers

Whatever your needs, to complement **AccessToyota**, TFS has a full range of finance options to offer. From traditional Hire Purchase to Contract Hire and Leasing.

Whether you're a private motorist with a fixed monthly budget in mind or a business customer looking for VAT-efficient funding options, just discuss your individual requirements with your Toyota Centre. They will be pleased to show you how convenient and competitive Toyota Financial Services can be.

* With the exception of batteries, corrosion of exhaust and damage or wear to the interior. Please refer to our Terms and Conditions for full details.

[§] Except on non-Toyota vehicles.

[°] On payment of the option-to-purchase fee.

** Subject to mileage and fair wear and tear conditions being met.

Finance subject to status to over 18s only. Indemnities may be required. Terms and conditions apply. Toyota Financial Services is authorised and regulated by the Financial Conduct Authority. Toyota Financial Services, Great Burgh, Burgh Heath, Epsom, Surrey, KT18 5UZ.

To experience the new Prius+ or for more information, please contact your local Toyota Centre or visit our website toyota.co.uk/prius+

Whilst every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. This brochure cannot be regarded as infallible (some of the vehicles shown may not be to exact UK specification), and as such does not constitute an offer for sale of any particular vehicle or specification. Fuel consumption values quoted throughout this brochure are determined according to EC Directive 1999/100/EC. The results do not express or imply any guarantee of actual fuel consumption. For the latest specification and availability we ask that you contact your local Toyota Centre.

The use of the term 'Toyota Accessories' should not be taken to imply that the products in these accessory pages are actually manufactured by the Toyota Motor Corporation or Toyota (GB) PLC. After Sales Division are continually updating and changing specifications of accessories and reserve the right to do so at any time without prior notice.
