

# TOYOTA GR SUPRA

Specifikationerne er den engelske version. Der tages derfor forbehold for ændringer til det danske marked.

**Brændstofforbrug:**  
11,3-12,3 km/l  
**CO<sub>2</sub>-udslip:**  
183-198 g/km

The fuel consumption and CO<sub>2</sub> values are measured in a controlled environment on a representative production model, in accordance with the requirements of the new WLTP European regulation EC 2017/1151 and its applicable amendments. For each individual vehicle configuration, the final fuel consumption and CO<sub>2</sub> values may be calculated based on the ordered optional equipment. The fuel consumption and CO<sub>2</sub> values of your vehicle may vary from those measured or calculated values, as driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, load, number of passengers, etc.) have an influence on a car's fuel consumption and CO<sub>2</sub> emissions.
